CUSTOM MAGNETS

Car magnets are an excellent temporary signage options for mobile advertising.

CUT OPTIONS

TRANSFER CUT DECAL

Means we will be cutting the vinyl decal material to a specified shape, graphic or text and then removing or "picking" any excess or unwanted vinyl material from your design leaving no vinyl background on your decal. Can be printed in full-color, not just white vinyl.

DIE-CUT DECAL

Means that we are cutting through both the vinyl decal material and the paper backing. This cut type doesn't leave any material around the decal. Another way to look at it is to think of it like a "cookie cutter" so you have individually cut decals with no paper material around the design.

KISS-CUT

Means we are only cutting through the vinyl layer (decal material) and not cutting through the paper backing, leaving a paper material border around your decal. When you choose a kiss-cut decal, you will have extra material around your decal for easy peeling.

Ordering decals can often be a source of stress. They get ordered last minute, they cost too much, or the quality isn't consistent. If you've experienced this, contact us to learn more about what we offer. Talk with one of our friendly representatives who will help you find a solution.

DECALS.COM

THE DECALS.COM DIFFERENCE

ALWAYS TALK WITH A REAL PERSON

Our customer service is 100% in-house and comprised of friendly, professional graphic designers. No chatbots, no outsourcing.

STATE-OF-THE-ART TECHNOLOGY

We continually invest in new technology to provide the best quality products and quickest turnaround time.

TRACK YOUR ORDER ANYTIME

Our proprietary Live Order Tracking system enables you to track your order at any time. From order placement to shipping, we'll keep you in the loop!

Many people shopping online for custom decals, stickers, and labels are worried they won't get quality products or service. We provide high-quality custom adhesives with a focus on taking care of people so they can share their message easily and professionally.
